

Consumer Content for Public Facing Sites

The below content is for public facing MLS sites with property listing integration.

OPTION ONE:

Find down payment help.

The good news is that you don't need 20% down to buy a home. Over 2,600 homebuyer assistance programs are available across the country, but most people don't know where to find them or that they even exist.

Here's how to find down payment assistance as you search for your new home:

1. Click the Down Payment Resource icon on eligible property listings provided by [MLS NAME] to access information about specific programs available.

[Include your chosen [DPR listing icon\(s\)](#) to show homebuyers what to look for on listings.]

2. Enter your household information. Details such as military service and your occupation can potentially match you to more opportunities.
3. Review your results to see how many programs and how much in down payment help may be available to you, then contact your [MLS NAME] real estate agent to take the next step toward homeownership.

OPTION TWO:

Homeownership may be closer than you think.

The number one obstacle for buyers is the down payment. Most homebuyers don't realize there is down payment help available for eligible homebuyers in every community across the country..

You may qualify for a down payment program if you meet the eligibility requirements. At [MLS NAME], we make your search for down payment help easy.

Click on the Down Payment Resource icon on property listings to find programs that may fit your personal situation.

[Include your chosen [DPR listing icon\(s\)](#) to show homebuyers what to look for on listings.]
